

Tenex

- The most consistently accurate .22 cartridge on the market.
- Benefiting from advanced production techniques and a revolutionary bullet shape, Tenex sets the standard by which all other target ammunition is judged.
- Olympic standard, medal winning, premium quality cartridges used by experienced club shooters.

Tenex has a revolutionary bullet shape proven to give optimum performance. Computer controlled visual inspection of each individual bullet and a rigid system of statistical process controls ensures that consistent standards are maintained at every stage of production. Its temperature controlled lubrication system ensures totally consistent chambering and barrel protection.

Extensive testing of production quality test samples in our sophisticated test range measures actual performance to an advanced level of accuracy –setting new standards in performance measurements. Only after it has passed an extensive series of quality checks do we approve the cartridge for release with the Tenex name.

Ballistic data

Bullet weight:
2.59 grams
40 grains

Profile:
Flat Nose

Lubricant:
Beeswax Tallow

Velocity:

Muzzle: 331 (m/sec) 1085 (ft/sec)
50m /50yds: 303 (m/sec) 994 (ft/sec)
91m /100 yds: 285 (m/sec) 935 (ft/sec)

Energy:

Muzzle: 14.5 (Kg.m) 105 (ft.lb)
50m /50 yds: 12.1 (Kg.m) 88 (ft.lb)
91m /100 yds: 10.7 (Kg.m) 78 (ft.lb)

ELEY TENEX THE MOST CONSISTENTLY ACCURATE .22 CALIBRE CARTRIDGE IN THE WORLD

Unique air conditioned priming facility gives a **75% improvement in the spread of primer weights** compared to any other manufacturer.

The mouth of each individual case is trimmed flat to ensure the bullet is always seated perfectly. Exacting crimping standards **ensure optimum pull-out force** round to round.

A new lead forming process applies **enhanced stability** to each bullet.

The **revolutionary flat nose bullet shape** (patented) provides advanced flight and ballistic characteristics in all conditions.

The quality of propellant is measured electronically for each individual cartridge to guarantee **consistent powder weight and constant velocity** within every batch

High tech inspection of the critical heel area ensures that every bullet is perfect

Eley's temperature controlled lubrication system provides **optimum chambering and barrel lubrication**, shot after shot.
